Memorandum of Understanding between MPMA and Plus Solar Systems Sdn Bhd

Subsequent to recommendations from some members who have utilised solutions from Plus Solar Systems Sdn Bhd (Plus Solar), MPMA has recently signed a Memorandum of Understanding with Plus Solar.

Plus Solar, a leading clean energy service provider in Malaysia has been working closely with MPMA members in the energy shift journey as far back as in 2014.

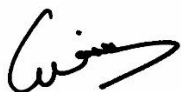

Energy bill savings is the main benefit derived from Plus Solar's solution. Further to this, companies can also claim **tax deduction** for implementing clean energy solutions.

The company has vast experience in transforming conventional energy to sustainable energy since 2013. To date, 15% of the solar energy that is being generated in Malaysia, which is equivalent to a capacity of more than 100MWp has been installed by Plus Solar. More than 100 commercial premises, factory buildings and large scale solar farm has engaged Plus Solar for their energy transformation. Its clientele includes IKEA Cheras, IKEA Tebrau, IKEA Batu Kawan, The Zon Penang, Sunway Sales Gallery, IJM, KLIA Solar Carpark and PKT Logistic.

MPMA encourages members contemplating to adopt clean energy solutions to work together with Plus Solar. Your decision to practise good corporate social responsibility towards the environment and community would certainly help the country in achieving its target of reducing carbon emission.

Yours sincerely,

MALAYSIAN PLASTICS MANUFACTURERS ASSOCIATION

ST GIAM
Executive Director
