

CIRCULAR NO. 65/2020

DATE: 18 APRIL 2020

**FAQ RELATING TO THE MOVEMENT CONTROL ORDER
MINISTRY OF INTERNATIONAL TRADE AND INDUSTRY
NO. 4**

Reference is made to [MITI'S FAQ NO. 4](#), Friday, 17 April 2020. Some highlights of the FAQ are as follows:

1. Companies that received MITI'S Approval during MCO Phase 1 & 2 must operate with the approved manpower capacity pending MITI's approval to increase worker capacity. The decision to increase workers capacity from MITI depends on the justification provided by the company and the Government's current requirements.
2. The QR Codes on MITI's Approval Letters are password protected. Only authorities can access this information.
3. Companies that have received approval from MITI are required to undertake the Covid-19 health screening for their registered and approved workers at the Social Security Organisation's (SOCSO) approved panel of health clinics throughout Peninsular Malaysia. Guidelines from SOCSO are being detailed and will be notified in the near future.
4. SOCSO will cover the cost of the Covid-19 health screening for the approved workers.
5. Companies that received MITI's approval can continue to operate while awaiting for their approved workers to undergo the Covid-19 health screening. However, companies must ensure that the Covid-19 health screening is carried out in accordance with SOCSO's terms and guidelines.
6. MITI's channel for employees to complain about their employers on SOP violation is via email to covid19sec@miti.gov.my under the heading "Complaint".

Thank you.
